## PROGRAM INFORMATION AND REQUIREMENTS

### INCENTIVE LIMIT

Cash incentives are limited to \$250,000 per project and \$500,000 per customer in a calendar year for all Focus on Energy incentives (prescriptive and custom). Any project with an expected incentive exceeding \$25,000 must receive written approval BEFORE project initiation or equipment purchase.

### PRESCRIPTIVE INCENTIVES

Cash incentives are available for a variety of technologies. Check the Focus on Energy Web site at [focusenergy.com/incentives/business](http://focusenergy.com/incentives/business) or call 800.762.7077, then press #2 for more information. Depending on your business tax classification, the IRS may require you to pay taxes on incentives totaling over \$600 per calendar year.

### CUSTOM INCENTIVES

If your project does not fit the descriptions on this prescriptive incentive application form, it may qualify for a custom incentive which requires approval prior to project initiation and ordering equipment or issuing purchase orders. Direct inquiries to 800.762.7077 then press #2 for Business Programs, or visit [focusenergy.com](http://focusenergy.com).

### TERMS & CONDITIONS

- Incentive Offer:** This application covers products purchased and installed/service performed between July 1, 2010 and December 31, 2010. Applications must be **submitted within 30 calendar days of project installation** and no later than December 31, 2010, unless an earlier date is specified by a Focus on Energy promotion. Please keep a copy for your records. Incomplete applications will be returned.
- Proof of Purchase:** This application must have complete information and be submitted with an invoice itemizing the product(s) and/or service(s) received. See the requirements section of this application for more details. Sample invoices are provided at [focusenergy.com/sampleinvoice](http://focusenergy.com/sampleinvoice).
- Compliance:**
  - All projects are expected to comply with federal, state and local codes.
  - All equipment must be new. Used or rebuilt equipment is not eligible for incentives. Existing equipment must be removed.
  - Equipment must meet specification requirements and be purchased and operating prior to submitting an incentive application form.
  - Only one incentive will be granted for each project. Incentives granted to contractors, distributors or other market providers cannot also be claimed by end-use customers.
- Payment:** Once completed paperwork is submitted, incentive payments are made within 8–10 weeks. Incomplete applications will be returned.
- Publicity:** Focus on Energy reserves the right to publicize your participation in this program, unless you specifically request otherwise in writing. Requests should be emailed to [bpforms@focusenergy.com](mailto:bpforms@focusenergy.com).
- Program Discretion:** Incentives are available on a first-come, first-served basis. This offer is subject to change or termination without notice at the discretion of the Focus on Energy Program. Some Focus participating electric and/or natural gas providers have incentive programs outside of Focus on Energy. Customers of these providers might not qualify for incentives from both programs. These customers should check with their electric and/or natural gas provider to verify eligibility for dual incentives in order to comply with program rules.
- Focus Logo:** Customers or market providers may not use the Focus on Energy name or logo in any marketing, advertising or promotional materials without prior written permission.
- Disclaimers:** Focus on Energy
  - Does not endorse any particular market provider, manufacturer, product, labor or system design by offering this program;
  - Will not be responsible for any tax liability imposed on the customer as a result of the payment of incentives;
  - Does not expressly or implicitly warrant the performance of installed equipment or contractor's quality of work (contact your contractor for detailed warranties);
  - Is not responsible for the proper disposal/recycling of any waste generated as a result of this project; and
  - Is not liable for any damage caused by the installation of the equipment or for any damage caused by the malfunction of the installed equipment.
- Monitoring and Verification:** Focus on Energy evaluates program efficacy by monitoring energy use/production prior to and after installation of your energy efficiency or renewable energy project. Program staff may conduct this monitoring or perform an inspection of the facility to survey the installed projects. Your signature on this application provides Focus on Energy approval to obtain energy data directly from your electric and/or natural gas provider(s). Any customer receiving an incentive check may be contacted by an evaluator to verify service/equipment installation or be asked to complete a customer survey.

### UTILITY ELIGIBILITY

Incentives for specific technologies are offered by Focus on Energy to business customers including commercial, industrial, state, federal and local governments, agricultural, and schools/institutions with locations in Wisconsin. Customers who are served by a participating electric provider but not a participating natural gas provider will only qualify for incentives for electric technologies. Customers who are served by a participating natural gas provider but not a participating electric provider will only qualify for incentives for natural gas technologies. Customers who have both a qualifying electric provider and a qualifying natural gas provider would qualify for incentives on both electric and natural gas technologies. Customers who use propane or other non-qualifying fuels will not qualify for incentives for any gas technologies.

### MARKET PROVIDER INFORMATION

A market provider represents the company who provided/installed the equipment for your project or performed the service for which you are seeking an incentive. The FEIN and Business Classification of the market provider is required **IF** you received your incentive as a credit on your invoice, whereby the incentive is owed to the market provider. In this scenario, the credit must be clearly labeled as the Focus on Energy incentive and deducted from the amount due.

If your project was completed by more than one market provider (example, equipment was purchased from one market provider but installed by another market provider) and the incentive is being paid to you the customer, please enter the information of the market provider who installed your equipment in Section 4: Market Provider Information. If the equipment was self-installed, please enter the information of the market provider from whom you purchased the equipment.

Focus on Energy works with eligible Wisconsin residents and businesses to install cost effective energy efficiency and renewable energy projects. Focus information, resources and financial incentives help to implement projects that otherwise would not get completed, or to complete projects sooner than scheduled. Its efforts help Wisconsin residents and businesses manage rising energy costs, promote in-state economic development, protect our environment and control the state's growing demand for electricity and natural gas.
