

Stay cool with energy savings

Earn BONUS CASH INCENTIVES when you tune up your chiller

Focus on Energy is offering special BONUS INCENTIVES when you tune up your air-cooled or water-cooled electric chiller between April 15 and July 30, 2009.

Standard incentive: \$2/ton, up to 50% of service cost

Special limited-time incentive: \$4/ton, up to 75% of service cost

Unlike the standard Service Buydown Incentive, this promotion applies only to air-cooled and water-cooled electric chillers. Other air-conditioning equipment (RTU, split systems, etc.) does not qualify for increased incentives. Chiller tune-up incentives are available only once in a 12-month period and only if your chiller has not been tuned in the last 12 months. Incentive covers normal maintenance items (see application form) only and excludes equipment repair not associated with regular maintenance.

To calculate your BONUS tune-up incentive:

A. Add up equipment capacity of all units serviced (in tons) and multiply by \$4/ton	=	\$
--	---	----

B. Cost of service = \$ _____ x 75%	=	\$
-------------------------------------	---	----

Total incentive (lesser of A or B above)	=	\$
---	---	-----------

How to apply

Fill out this coupon and attach it to a completed standard Service Buydown Incentive Application. Coupons received without a completed application will be returned. All requirements on the standard form apply. Also, submit a copy of a paid invoice with your application. You can download a copy of the form from the Focus on Energy Web site at focusonenergy.com/financialincentives. Submit all information to Focus on Energy.

Hurry, offer ends July 30, 2009!

Work must be completed and applications received or postmarked between April 15 and July 30, 2009. For more information about Focus on Energy's chiller tune-up promotion, call 800.762.7077 or visit focusonenergy.com/chillertuneups.
