

Congratulations on Starting an Energy Management Team!

For more information, call **800.762.7077** or visit **focusonenergy.com**.

Thank you for making the commitment to implement an energy management team at your organization. It might seem like a difficult task, but it offers amazing benefits and Focus on Energy, Wisconsin's statewide program for energy efficiency and renewable energy, is here to ensure you get off to the right start.

Energy management can give your organization a competitive edge by:

- Saving money by reducing facility-wide energy use.
- Improving your working environment, helping to increase productivity.
- Extending equipment life and lowering maintenance costs by using energy and equipment more efficiently.
- Implementing projects that have a high ROI and low risk to implement.
- Enhancing customer and community relations.
- Understanding energy-related technology opportunities, including renewable energy systems and new construction opportunities.

Please review the information in this packet to learn more about starting an energy management team and developing an energy management policy. We've included a sample energy policy and meeting agenda, as well as an example of an organization that has a successful team. Also, consider taking a Focus on Energy training course to learn everything you need to know to save energy at your company. For more information visit **focusonenergy.com/training**.

If you have any questions or need help getting your team off the ground please call us at **800.762.7077** or visit **focusonenergy.com/energyteam**. We offer free resources, technical expertise, training opportunities, financial incentives, project ideas, and much more!

We wish you the best of luck and hope to hear from you!

Warm regards,

The Focus on Energy Team
