REQUIREMENTS

2. Use one form per location. If an invoice includes more than one location, please include a copy for each location. Each location must be submitted on a separate form.
3. **Equipment Bonus:** To qualify for the multiple equipment bonus, installed equipment must be from different measure categories. Combinations of refrigerators and freezers do not qualify as two types of measures. To qualify for bonus, all equipment must be on the same application.
4. **ENERGY STAR® Equipment and other Food Service Measures: For a list of qualifying equipment and/or approved incentives, visit focusonenergy.com/foodserviceincentives or contact the Focus Hospitality Team at 888.598.4376.**
5. **Ice Machines:** Machines for base efficiency incentive may be air- or water-cooled. ENERGY STAR machines are air-cooled only. Flake and nugget machines not included in the Focus on Energy offering. To determine the size range for qualification, the harvest rate of the unit must be based on operation at standard rating conditions per AHRI Standard 810.
6. **Commercial Dishwashers:** Fuel type of water heater and booster heater (when applicable) must be indicated to receive incentive. Flight machines are not included in the Focus on Energy offering.

To receive bonus, make-up-air unit fan must be controlled in addition to exhaust fan. The control system must modulate the speed of the fan motor based on inputs from a duct temperature sensor mounted in the exhaust duct. To receive a higher incentive, a sensing device such as an infrared beam or optical sensor used to detect the presence of smoke or cooking effluent must be used in addition to the duct temperature input. Equipment must be on the qualifying equipment list, and space must be heated with natural gas to qualify.
