

ENERGY STAR® Commercial Food Service Equipment: **Steam Cookers**

As hot food holding cabinets are frequently used 24 hours a day, 365 days a year, models that earn the ENERGY STAR offer businesses significant opportunities for saving energy and money. In addition, the insulation contained in ENERGY STAR qualified models keeps heat from radiating into the kitchen, ensuring a more comfortable work environment.

Products that earn the ENERGY STAR® prevent greenhouse emissions by meeting strict energy efficiency guidelines set by the U.S. Environmental Protection Agency and the U.S. Department of Energy. Learn more at www.energystar.gov

ENERGY SAVINGS BENEFITS

- Steam cookers that earn the ENERGY STAR are nearly 50 percent more efficient than standard models.
- Each ENERGY STAR qualified gas steam cooker can save around 460 therms annually, or an average of \$550 per year on utility bills.
- Each ENERGY STAR qualified electric steam cooker can save over 6,000 kWh annually, or an average of \$550 per year on utility bills.

WATER SAVINGS BENEFITS

- ENERGY STAR qualifying models use at least 90 percent less water than standard models.
- ENERGY STAR qualified steam cooker saves approximately 174,000 gallons of water annually, or an average of \$700 per year on water bills.

QUALITY BENEFITS

- ENERGY STAR qualified steam cookers have shorter cook times and higher production rates, with lifetime maintenance costs approximately half that of standard models.

LIFECYCLE SAVINGS

- An ENERGY STAR qualified steam cooker (electric or gas) can save more than \$7,000 over the equipment's lifetime.
- As most ENERGY STAR models cost no more than a standard model, payback is immediate.

ENERGY STAR Qualified
Steam Cookers (gas or electric):

**\$100
Incentive
per pan**

Focus on Energy works with eligible Wisconsin residents and businesses to install cost effective energy efficiency and renewable energy projects. Focus information, resources and financial incentives help to implement projects that otherwise would not be completed, or to complete projects sooner than scheduled. Its efforts help Wisconsin residents and businesses manage rising energy costs, promote in-state economic development, protect our environment and control the state's growing demand for electricity and natural gas. For more information, call **800.762.7077** or visit focusonenergy.com.
