TRADE ALLY INFORMATION

A trade ally is the company who provided/installed the equipment for your project or performed the service for which you are seeking an incentive. Program allies are trade allies who have signed an agreement with Focus on Energy which allows them to enjoy certain program benefits, one of which is to receive direct payment of incentives at your request. Incentives can only be paid directly to an ally if they have completed and submitted a Program Ally Application.

The FEIN and Business Classification of the program ally is required IF you received your incentive as a credit on your invoice, whereby the incentive is paid directly to the program ally. In this scenario, the credit must be clearly labeled as the Focus on Energy incentive and deducted from the amount due.

If your project was completed by more than one ally (example, equipment was purchased from one ally but installed by another ally) and the incentive is being paid to you the customer, please enter the information of the ally who installed your equipment in Section 4: Trade /Program Ally Information. If the equipment was self-installed, please enter the information of the ally from whom you purchased the equipment.

Focus on Energy works with eligible Wisconsin residents and businesses to install cost effective energy efficiency and renewable energy projects. Focus information, resources and financial incentives help to implement projects that otherwise would not get completed, or to complete projects sooner than scheduled. Its efforts help Wisconsin residents and businesses manage rising energy costs, promote in-state economic development, protect our environment and control the state's growing demand for electricity and natural gas.
