## **Madison Dental Office Celebrates Grand Opening and Completion of Renewable Energy Systems**

*- Solar hot water and solar electric systems to help facility cut operating costs -*

**MADISON, Wis. (June 1, 2009)** – Madison No Fear Dentistry, a newly constructed dental office, will host an open house on **June 5, 2009 from 3 p.m. to 5 p.m.** The event celebrates the facility’s grand opening as well as the completion of its new solar electric and solar hot water systems. The office is located at 344 S. Yellowstone Dr. in Madison, Wis.

The renewable energy systems were completed with technical assistance and more than \$12,000 in financial incentives from Focus on Energy, Wisconsin’s energy efficiency and renewable energy initiative. Because of Focus’ assistance, Dr. David Ducommun, owner of Madison No Fear Dentistry, will be able to cut the facility’s natural gas and electricity consumption — shielding him from increases in energy costs and helping him gain energy independence.

“David is a great example of what other Wisconsin business owners can do to cut their energy costs, while helping the environment,” said Eric Callisto, Public Service Commission Chairperson. “His efforts can be emulated by so many, as Focus on Energy has a network of renewable energy experts and financial incentives readily available for thousands of eligible Wisconsin residents and businesses.”

H&H Solar Services, a Madison, Wis., based company, installed both the solar electric and solar hot water systems. The 5.4 kilowatt (kW) solar electric system consists of 30 panels on the roof of Madison No Fear Dentistry. The solar hot water system, which consists 78 square feet of collectors on the roof, is expected to offset 164 therms per year.

### **What to Expect at the Open House**

The open house is free and open to the public. Attendees will have the chance to tour the facility, including the solar electric and solar hot water systems. Focus on Energy experts, as well as representatives from H&H Solar Services, will be on hand to answer questions about the systems. The event will also include speeches from key participants in the project. Chairperson Callisto will present a \$12,000 check to Dr. Ducommun on behalf of Focus on Energy. The speeches and check presentation will begin at 3:30 p.m.

To find more information about technical and financial assistance available through Focus on Energy, visit [focusonenergy.com](http://focusonenergy.com) or call (800) 762-7077.

### **About Focus on Energy**

Focus on Energy works with eligible Wisconsin residents and businesses to install cost effective energy efficiency and renewable energy projects. Focus information, resources and financial incentives help to implement projects that otherwise would not be completed, or to complete projects sooner than scheduled. Its efforts help Wisconsin residents and businesses manage rising energy costs, promote in-state economic development, protect our environment and control the state's growing demand for electricity and natural gas. For more information, call (800) 762-7077 or visit [focusonenergy.com](http://focusonenergy.com).
