Focus on Energy Renewable Energy Program Names Market Provider of the Year

MADISON, Wis. (June 29, 2007) – Focus on Energy’s Renewable Energy Program honored Andrew Bangert, of Madison, Wis. based H&H Solar Energy Services, with the 2007 Market Provider of the Year Award. The award was presented at the 18th annual Midwest Renewable Energy Association (MREA) Renewable Energy and Sustainable Living Fair on June 17, 2007 in Custer, Wis.

The Market Provider of the Year Award was conceived as a way to recognize renewable energy contractors who exemplify the goals and expectations of the Focus on Energy Renewable Energy Program. Contractors who receive this award are exceptional in their passion, intelligence and dedication when it comes to providing renewable energy services.

“Andrew Bangert puts all of his passion into his work promoting and installing solar electric systems,” said Niels Wolter, solar electric program manager for Focus on Energy’s Renewable Energy Program. “Thanks to his passion and professionalism he is now the busiest installer in the state.”

Bangert has been with H&H Electric since 1994. A master electrician and a North American Board of Certified Energy Practitioners (NABCEP) Certified Solar Installer, Bangert has 15 years experience in the electrical industry. Bangert has single handedly brought H&H Solar Energy Services to the forefront as the leading solar installer in the state. He has installed more than 100 solar power systems in the last five years. He is also a certified instructor and has taught several photovoltaic (PV) workshops and classes at Madison Area Technical College.

Focus on Energy's Renewable Energy Program strives to make renewable energy an attainable option in Wisconsin by encouraging Wisconsin residents and businesses to investigate and take advantage of renewable energy sources such as solar, wind and biomass. It seeks to raise awareness, provide training and financing, enhance marketing, promote technical assistance and support the installation of renewable energy technologies across Wisconsin. The program also offers technical assistance and site assessments and helps businesses and residents locate renewable energy contractors, like H&H Solar Energy Services, when they are interested in installing a renewable energy system.

To learn more about the Focus on Energy Renewable Energy Program and how to become a Market Provider, visit focusonenergy.com or call (800) 762-7077.

About the Focus on Energy Renewable Energy Program

Focus on Energy works with eligible Wisconsin residents and businesses to install cost effective energy efficiency and renewable energy projects. Focus on Energy's Renewable Energy Program seeks to raise awareness, provide training and financing, enhance marketing, promote technical assistance and support the installation of renewable energy technologies across Wisconsin.
