

Full Service Solar Hot Water System Installation Firms Active in Wisconsin

This alphabetical listing of solar water heating system installation firms will help you quickly find an installer. To qualify for a Solar Water Heating System Cash-Back Reward or Implementation Grant, you must choose an installation firm on this list or one that has met the requirements of the [Solar Hot Water Full Service Installer Policy](#) found at [focusonenergy.com](#). Appearing on this list does not imply recommendation or endorsement by Focus on Energy.

A **Full Service Installation Firm** is defined as the single point of contact with a customer to design, sell, install and maintain (service and/or repair) renewable energy equipment or who contracts with subcontractors to supply these services. A Full Service Installation Firm must employ a Focus on Energy approved **Full Service Installer (FSI)** who takes the responsible installation role on systems co-funded by Focus on Energy.

When Selecting an Installer

Focus on Energy recommends that you solicit bids and interview at least three potential contractors. Questions that you may ask include:

- Can you provide references from previous customers with similar systems?
- When would you be able to perform the work?
- How long will the project take?
- Do you provide a performance guarantee and/or warranty, and if so, what are the details?
- How many similar systems have you installed?
- Have you worked with local building officials and utility representatives when installing similar systems in the past?
- Do you have a master electrician (or professional electrical engineer) as part of the project team?
- Will you hire subcontractors to complete portions of the project? What firms will you hire and what will they do?
- Do you repair systems that you installed, and if so, what are your rates?
- What kind of training will you provide me with so that I can better operate and maintain my system?

NABCEP Certified Solar Water Heating Installers:

A North American Board of Certified Energy Practitioners (NABCEP) Certified Solar Water Heating Installer has met a general set of knowledge, skills and abilities typically required of practitioners who install and maintain solar thermal systems.

Get on the Full Service Installer List or Update Your Listing

We encourage full service renewable energy firms doing business in Wisconsin to be included in the Full Service Installation Firm list. To request to be included in this listing or to update or correct information provided contact Emily Hickey at 608.441.3840 x320 or emilyh@weccusa.org.

Focus on Energy works with eligible Wisconsin residents and businesses to install cost effective energy efficiency and renewable energy projects. Focus information, resources and financial incentives help to implement projects that otherwise would not get completed, or to complete projects sooner than scheduled. Its efforts help Wisconsin residents and businesses manage rising energy costs, promote in-state economic development, protect our environment and control the state's growing demand for electricity and natural gas. For more information call **800.762.7077** or visit focusonenergy.com.
