Website: www.wiseenergysolutions.com
Service Territory: Midwest

When Selecting an Installer

Focus on Energy recommends that you interview potential contractors. Questions that you may ask include:

- Can you provide references from previous customers with similar systems?
- When would you be able to perform the work?
- How long will the project take?
- Do you provide a performance guarantee and/or warranty, and if so, what are the details?
- How many similar systems have you installed?
- Have you worked with local building officials and utility representatives when installing similar systems in the past?
- Do you have a master electrician (or professional electrical engineer) as part of the project team?
- Will you hire subcontractors to complete portions of the project? What firms will you hire and what will they do?
- Do you repair systems that you installed, and if so, what are your rates?
- What kind of training will you provide me with so that I can better operate and maintain my system?

Get on the Full Service Installer List or Update Your Listing

We encourage full service renewable energy firms doing business in Wisconsin to be included in the Full Service Installers list. To request to be included in the Full Service Installers list or to update or correct information provided, contact: Emily Hickey at 608.441.3840 x 320 or emilyh@weccusa.org.

Focus on Energy works with eligible Wisconsin residents and businesses to install cost effective energy efficiency and renewable energy projects. Focus information, resources and financial incentives help to implement projects that otherwise would not get completed, or to complete projects sooner than scheduled. Its efforts help Wisconsin residents and businesses manage rising energy costs, promote in-state economic development, protect our environment and control the state's growing demand for electricity and natural gas.
