

2020 INCOME ELIGIBILITY APPLICATION GUIDELINES

Thank you for your interest in FOCUS ON ENERGY® Tier 2 benefits. Please read the guidelines below for instructions on how to complete the application. To expedite the approval process and avoid delays, make sure to include the necessary documents as requested below. If you have questions, please contact us at homerewards@focusonenergy.com or **855.339.8866**. These guidelines are effective January 1, 2020.

If you are approved for Tier 2 benefits, you will be eligible to receive greater incentives for the following improvements:

- Air sealing
- Sill box and foundation insulation
- Attic insulation
- HVAC equipment

Program Requirements

To be eligible for Tier 2 benefits, you must meet all the requirements listed below.

- Must be a customer of a participating utility company. Confirm your utility participates at focusonenergy.com/utilities.
- Must live in an existing home (New Construction and Mobile Homes are NOT eligible for insulation or air sealing; Mobile Homes may be eligible for incentives for replacing eligible HVAC equipment.)
- At least 50% of your home must be heated with natural gas or electricity (propane/LP, oil and wood are NOT eligible for insulation or air sealing).
- Your annual or three month household income must be 80% or less of the State Median Income (SMI) (see chart below). Review and verification of income eligibility is required prior to completing improvements.

Determining Income Level

Do you meet the Income Guidelines?

If your gross annual or three month household income is 80% or less of the State Median Income, you may be eligible for Tier 2 benefits. If your gross annual or three month household income is above 80% of the SMI, you may be eligible for Tier 1 benefits. To determine if your income qualifies, find your gross annual or gross three month income and household size in the chart below. For example: If you have four family members, find "4" in the Household Size row and then look at the income amount in the Income rows below. If your gross annual household income is less than \$73,521 or gross three month income is less than \$18,380, you may qualify for Tier 2 benefits.

How to use this chart: Income eligibility is determined using applicants' most recent IRS Form 1040 or the documented income of the previous three full months. Certain income types require 12 months, which will be used to calculate a monthly average to determine the three month income value. Applicants must have a three month income of no more than the "Upper limit: 80% SMI" listed for his/her household size in the table above. *Applicants with income less than the 60% SMI value listed for his/her household size may participate, but are encouraged to contact a local weatherization agency for information on other available assistance programs.

Documents to Submit With Your Application

Please provide copies of the requested documents to verify the information on your application and to determine incentive eligibility. Be sure to keep copies of your application and documents.

Incomplete applications cannot be processed. Failure to complete the Income Eligibility Application in full and provide the required supporting documentation will either delay the income eligibility process or result in denial.

Handling and storage of personal information, applications and all supporting documentation follow strict security and data handling measures similar in scope to the requirements of Wisconsin Home Energy Assistance Program (WHEAP) and Low Income Home Energy Assistance Program (LIHEAP).

Section 1: Applicant Information

Provide information about yourself and your property, how to reach you and how you heard about the program.

- All applications must contain current, complete and accurate information based on the date of application.
- The Applicant should be the occupant of the Installation Address (the home where work will be completed).
- If you are the landlord, your tenant living at the Installation Address should complete this Income Application.
- Select your preferred method of contact to be notified of eligibility determination or for additional information, if required.

Section 2: Property Eligibility

Complete all sections in order for us to determine your eligibility for incentives. Any fields left blank will result in an incomplete application and a delay in processing.

Focus on Energy is funded by participating Wisconsin utility companies. Check the list of participating utility companies at focusonenergy.com/utilities to see if your utility company participates. At least 50% of your home must be heated with natural gas or electricity from a participating utility company in order to be eligible for incentives.

Section 3: Household Members

Applicant must report the names of all household members (including children and yourself, the applicant) living at the installation address at the time of application submittal, as well as each household member's date of birth.

- Household Members: All individuals living in the household at the time of application submittal (related, unrelated or living together in the dwelling unit) are household members. Persons living in a housing arrangement with their own room who share common spaces are part of the household for this application.
- The following individuals are not eligible household members and should not be included, nor should their income be included in Section 4.
 - Roomers/Boarders/Renters** who do not provide for the necessities of life for other household members (i.e., an individual who pays rent for their portion of the living space only, has a rental agreement with the landlord and does not otherwise provide financial support for other eligible household members). Persons sharing living spaces are not considered roomers.
 - Temporary Residents/Household Members:** Individuals who are not permanent residents of the household but will be living in the household for less than 30 days after application submission. Temporary Residents include individuals who lived in the household during a portion of the preceding three months but are not living in the household at the time of application submittal.
 - Foreign Exchange Student** from another country attending school on an exchange program.
 - College Students**, unless they live in the household full-time and do not have another residence (i.e. dorm room or apartment).
 - Foster Children** of applicant who are orphaned, neglected, or delinquent and are not living in the household.
 - Medical Attendant** who does not live in the household.
 - Military on Active Duty:** A household member who is currently in active duty or has been called into active duty and is to be out of the household for at least 60 days. The base income of this individual should not be listed in Section 4, but any household support provided to maintain the household (i.e., housing allowances, allotments sent directly to the household for support) should be listed in Section 4.

Section 4: Household Income (Option Number One or Option Number Two)

Applicant must fully disclose all income for each household member unless the individual is considered ineligible for income purposes (as noted above in Section 3). Failure to provide true and accurate information may result in the Program rescinding the incentive amount.

(Please complete Option Number One or Option Number Two)

If you are choosing Option Number One, do not complete Option Number Two. If you complete both Option Number One and Option Number Two, Focus on Energy will use the most recent income documents to determine eligibility. Only one option can be used per household. For example: If using Option Number One, all household members must provide their tax forms.

Option Number One

List the annual income for each household member who is part of your household's Economic Unit. An Economic Unit includes all individuals, related or unrelated, who live together in the household and jointly share in providing or being provided for the necessities of life (shelter, heat and utilities) for all household members. Applicants are required to fully disclose all eligible income. Failure to provide true and accurate information may result in the Program rescinding the reward amount.

Please note: Do not send originals and be sure to black out Social Security numbers.

See APPENDIX A for a complete list of Income Types, Descriptions and Acceptable Support Documents.

Option Number One – Please submit a copy of your most recent Tax Form 1040 and Schedule 1 for each member of your Economic Unit. TANF/W2, Veterans' Benefits, Workers' Compensation and Child Support are not represented by IRS Form 1040 and Schedule 1; if you receive income from one of those income types, please provide supporting documentation (see Guidelines for more detail).

- **If you are required to submit a Schedule 1, count all income shown in lines 10–21.**

NOTE: We are required to add non-taxable income to our calculations, which means we count the total of Social Security benefits, pensions and IRAs received. For example, on Form 1040 we use lines 4a and 5a instead of 4b and 5b to calculate that income. We zero out any negative numbers and do not subtract that amount from your income.

Option Number Two

List the three full months of income prior to date of installation or three full months, equaling no less than 90 days, before submittal of income eligibility application for each household member who is part of your household's Economic Unit. An Economic Unit includes all individuals, related or unrelated, who live together in the household and jointly share in providing or being provided for the necessities of life (shelter, heat and utilities) for all household members. Applicants are required to fully disclose all eligible income. Timeframe is three full months prior to date of equipment installation, or income eligibility application submission date if no equipment has been installed. Failure to provide true and accurate information may result in the Program rescinding the reward amount.

Income eligibility for this option is determined using the documented income of the three full months of income prior to date of installation or three months before submittal of income eligibility application; however, certain income types are only available on a 12-month basis. Please refer to **APPENDIX A** for details on Income Types or call **855.339.8866** if you have questions. For all other income types, if you complete both Option Number One and Option Number Two, Focus on Energy will use the most recent income documents to determine eligibility.

Note: Bank statements are only accepted as proof of income for Dividends/Interest and/or Supplemental Security Income (SSI).

Option Number Two – Submit three full months of income support documents for each member of your Economic Unit (see Guidelines for more detail). **HOUSEHOLD INCOME** – Include income for household members over the age of 18, excluding full-time high school students. Timeframe is three full months, equaling no less than 90 days, prior to date of equipment installation, or income eligibility application submission date if no equipment has been installed. For households with no income, a Zero Income Form must be filled out in addition to filling out the table below.
