

COMPREHENSIVE LIGHTING SOLUTIONS

Comprehensive Lighting Solutions (CLS) from FOCUS ON ENERGY® aims to help building operators understand their lighting needs and offers incentives for implementing a complete lighting redesign when current conditions no longer meet facility needs. Whether upgrading fixtures or integrating connected controls, Focus on Energy is here to put you on the path to savings.

General requirements

- **All projects must be preapproved. Call 888.623.2146 or contact your Energy Advisor before you start your project.**
- Documentation required for pre-approval:
 - Proposal detailing existing and proposed fixture type(s), quantities and model numbers with options.
 - Proposed control system specifications (if applicable).
 - Existing and proposed footcandles at working surface for space type representing the most square footage.
 - Completed CLS workbook. Download a copy at focusonenergy.com/catalogs.
- New fixtures/retrofit kits must be ENERGY STAR® certified or DesignLights Consortium™ (DLC) SSL QPL listed (TRT V4.4 or higher).
- Control systems must be DLC NLC QPL listed (TRT V4.0 or higher).
- All installations are expected to meet current IES recommendations for delivered light level and uniformity. Compliance is the responsibility of the installer/designer.
- Incentive amount is limited to 50% of project cost, including equipment and external labor (internal labor eligible for schools and government customers).
- Customers can apply for either a fixture or retrofit kit upgrade **or** upgrade with connected controls. Eligibility limited to one option.

FIXTURE OR RETROFIT KIT UPGRADE

Requirements:

- One-for-one fixture/retrofit kit replacements are NOT eligible. See Lighting Incentive Catalog for incentives available for one-for-one replacements.
- No changes to existing control strategies.
- Eligible for interior lighting only (including underground parking structures). Exterior lighting is ineligible.

Measure Description	Code	Incentive	Unit
CLS – Fixture or Retrofit Kit Only	L5029	\$0.25	Watt reduced

FIXTURE OR RETROFIT KIT/LAMP UPGRADE WITH CONNECTED CONTROLS

Requirements:

- Eligible for fixtures, retrofit kits or lamps with connected controls. Prescriptive incentives for this equipment are not eligible.
- Systems are NOT eligible for additional control incentives (i.e. daylighting, high bay, or non-high bay controls).
- Eligible for interior and exterior systems.

Measure Description	Code	Incentive	Unit
CLS – Fixture or Retrofit Kit/Lamp with Connected Controls, Interior	L5031	\$0.45	Watt reduced
CLS – Fixture or Retrofit Kit/Lamp with Connected Controls, Exterior	L5030	\$0.50	Watt reduced
