FOCUS ON ENERGY
NEW HOME CERTIFICATION PROGRAM

Yard Signs and Window Clings

Trade Ally Contractors: Promote your Certified New Homes with yard signs and window clings!

YARD SIGNS: Ready to sell your Focus on Energy Certified New Home? Get noticed by placing a yard sign in the front lawn when construction is nearly complete. The yard sign reinforces the fact that you build superior homes, and are committed to saving energy.

Yard signs can also help increase general awareness of and interest in the New Home Certification Program amongst future homebuyers in the area.

➤ SPECS: Circular; 24” in diameter. Includes metal stakes. Designed to be re-usable.

TIP: Use yard signs and window clings at your model homes and to stand out at home showcase events.

WINDOW CLINGS: When a yard sign is not an option, place a cling in the street-facing window of a Focus on Energy Certified New Home.

Window clings can also be placed in a builder’s office or showroom to promote participation in the New Home Certification Program.

➤ SPECS: Circular; 14” in diameter. Designed to be re-usable.
